EXPERIENCE

Persistent Systems

Sept. 2024 – Present

Engineering Lead (Machine Learning)

Pune, Maharashtra

- Developed **Anomaly Detection (AD)**, **Forecasting (FC)**, and **Event Correlation (EC)** modules for Telecom data
- Deployed and handled support for AD, FC, and EC modules across multiple **GCP** and on-premises tenants
- Built **AI Agents** for automated development, testing, and validation reducing workload by upto **40%**
- Introduced MLflow experiment tracking and model registry across ML modules, reducing debugging overhead by **30%**
- Developed a framework and **Grafana** Dashboard to monitor the metrics and status of Machine Learning pipelines
- Benchmarked AD/FC models (**Holt-Winters**, **XGBoost**, **Prophet**, **TimesFM**) and EC models (**Word2Vec**, **Transformer**)

Roadzen

Nov. 2022 – Sept. 2024

Machine Learning Engineer

New Delhi

- Designed, developed, and deployed ML pipelines and APIs for automobile damage detection
- Developed **YOLOv8 + Zoom Classifier** hybrid for damage segmentation, outperforming **Detectron2** by **6%** in A/B experiments
- Partnered with annotation team to improve the image segmentation data quality
- Developed a **Streamlit** app to monitor the status of ML pipelines
- Created a centralized ML framework to streamline data processing tasks

Expedia Group

Mar. 2021 – Nov. 2022

Machine Learning Engineer I

Gurugram, Haryana

- Designed, developed, and deployed ML pipelines for **Partner Recommendations team**
- Developed a framework to automatically create data pipelines, reducing development effort by **70%**
- Added enhancements and new features to the **Spark** framework to create ML pipelines
- Developed services and dashboards to monitor ML pipeline failures and issue alerts in case of failures

Netomi (Formerly MSG.AI)

Jun. 2019 – Jul. 2019

Machine Learning Research Intern

Gurugram, Haryana

- Increased the accuracy of Intent Classification by 3% using **Autoencoders** and **Transformer** based models

EDUCATION

Delhi Technological University

Aug. 2016 – Jun. 2020

Bachelor of Technology in Mathematics and Computer Engineering

New Delhi

PUBLICATIONS

Efficient Satellite Image Representation using Deep Autoencoder

International Journal of Advanced Science and Technology, 2020

SKILLS

Languages : Python, Scala, C/C++, SQL (PostgreSQL, MySQL, Clickhouse, Hive), R, Bash

Tools : Docker, Kubernetes, Airflow, Kafka, Jenkins, Git, JIRA, Databricks, MS Excel

Frameworks : Tensorflow, Keras, Pytorch, Pandas, Scikit-Learn, Kedro, Seaborn, Numpy, Spark, Flask, FastAPI, Streamlit, OpenCV, Matplotlib

Expertise : Machine Learning, Agentic AI, Computer Vision, Natural Language Processing, Large Language Models, Exploratory Data Analysis, MLOps
